**5.0 Assignment**

5.1 The subscriber listing information will remain the property of AT&T. Except as stated in Section 2.0 herein, SWBT will not sublicense, assign, sell or transfer the subscriber listing information provided hereunder, nor will SWBT authorize any other company or any person to use the subscriber listing information for any other purpose. SWBT will take appropriate measures to guard against any unauthorized use of the listings provided to it hereunder (at least the same measures SWBT takes to protect its own listings from unauthorized use), whether by SWBT, its agents, employees or others.

5.2 At AT&T's request, SWBT will transmit AT&T end user listing information to designated third party directory publishers (limited to publishers that SWBT transmits its own listing information) for a one-time administrative fee of \$100.00 per occurrence, per directory publisher.

**6.0 Term**

6.1 This Attachment will continue in force until terminated by 60 days prior written notice by either Party to the other. Upon termination, SWBT will cease using, for any purpose whatsoever, the subscriber listing information provided hereunder by AT&T, and will promptly return such subscriber listing information to AT&T.

6.2 Upon termination of the interconnection Agreement, this Attachment will be null and void with respect to any issue of directories published thereafter.

**7.0 Liability**

7.1

7.2

**ATTACHMENT 20: CLEARINGHOUSE (CH)**

WHEREAS, SWBT operates a Clearinghouse (CH), as described below, for its own behalf and that of participating LECs and LSPs, including AT&T; and,

WHEREAS, AT&T wants to participate in the CH on the terms set forth herein;

The Parties agree to the following:

**1.0 Clearinghouse Description**

- 1.1 SWBT operates a CH for the purpose of facilitating the exchange of certain alternatively billed intrastate intraLATA message toll call records and the reporting of settlement revenues owed by and among participating LECs and LSPs, including SWBT and AT&T.

**2.0 Qualifying Message Criteria**

- 2.1 The only toll call messages that qualify for submission to SWBT for CH processing are: (a) intrastate intraLATA sent collect (including calling card, collect and third number) messages which are originated in one LEC or AT&T exchange, exclusively carried by a LEC or AT&T over LEC or AT&T facilities and billed to a customer located in a second LEC's or AT&T exchange within the same state; or (b) intrastate intraLATA sent collect (but limited to calling card and third number) messages originated in one of SWBT's operating areas (located in parts of Texas, Arkansas, Kansas, Missouri or Oklahoma), exclusively carried by a LEC or AT&T over LEC or AT&T facilities, and billed to a customer located in a second LEC's or AT&T exchange and not in the originating State.

**3.0 Responsibilities Of The Parties**

- 3.1. AT&T agrees that it will provide SWBT with billing records for CH processing that are in an industry standard format acceptable to SWBT and that at a minimum will display the telephone number of the end user to whom the call is to be billed and data about the call sufficient for a carrier to comply with all applicable state regulatory requirements. For purposes of this Attachment, these records ("CH Records") will detail intraLATA toll calls which were originated by use of the single digit access code (i.e., 0+ and 0-) in one LEC or AT&T exchange but are to be billed to an end user in a second LEC's or AT&T exchange. Such records are referred to as category 92 records for CH processing purposes. The term "CH Record" will mean the call detail attributed to a single completed toll message.
- 3.2 AT&T agrees that all CH Records it generates will display indicators denoting whether category 92 Records should be forwarded to SWBT's CH. AT&T will retain its

originating records for ninety (90) days such that the category 92 Records can be retransmitted to SWBT for CH processing, if needed.

- 3.3 SWBT will provide and maintain such systems as it believes are required to furnish the CH service described herein. SWBT, in its capacity as operator of the CH, agrees to retain all CH Records processed through the CH for two (2) years.
- 3.4 AT&T will timely furnish to SWBT all CH Records required by SWBT to provide the CH service in accordance with the Technical Exhibit Settlement Procedures (TESP) dated March 25, 1996, or as otherwise mutually agreed upon by the Parties. SWBT will provide the CH service in accordance with the TESP and such modifications as are subsequently agreed upon.
- 3.5 Presently, in operating the CH, SWBT relies upon NXX codes to identify messages for transmission to participating billing companies. To the extent any subprocesses are required to settle CH messages due to the use of ported numbers, such subprocessing will be the responsibility of the porting entity.

#### **4.0 Processing Charge**

- 4.1 AT&T agrees to pay SWBT a processing charge in consideration of SWBT's performance of CH services. This charge is \$.02 per originated CH Record processed on behalf of AT&T.

#### **5.0 Billing Charge**

- 5.1 AT&T agrees to pay a \$.05 per message charge to the LEC or LSP responsible for billing the message, including SWBT, when SWBT bills the message.

#### **6.0 Settlement Report**

- 6.1 SWBT will issue monthly reports containing the results of the processing of CH Records to each participating LEC and AT&T. These reports list the (a) amounts owed by AT&T for billing messages originated by others; (b) amounts due to AT&T for AT&T-originated messages billed by others; (c) applicable billing charges; and (d) processing charges.

#### **7.0 Retroactive and Lost Messages**

- 7.1 The Parties agree that processing of retroactive messages through the CH is acceptable, if such messages utilize the industry standard format for call records, pursuant to Section 3.0 of this Attachment. The Parties agree that lost messages are the complete responsibility of the originating LEC or AT&T. If messages are lost by any Party, and

cannot be recreated or retransmitted, the originating LEC or AT&T will estimate messages, minutes, and associated revenues based on the best available data. No estimate will be made for messages which are more than two years old at the time the estimate is made. The estimates will be off-line calculations (i.e., not part of the routine CH processing) and will be included as a supplement to the monthly settlement report.

#### **8.0 Limitation Of Liability**

- 8.1 By agreeing to operate the CH, SWBT assumes no liability for any LEC's or AT&T's receipt of appropriate revenues due to it from any other entity. AT&T agrees that SWBT will not be liable to it for damages (including, but not limited to, lost profits and exemplary damages) which may be owed to it as a result of any inaccurate or insufficient information resulting from any entity's actions, omissions, mistakes, or negligence and upon which SWBT may have relied in preparing settlement reports or performing any other act under this Attachment.
- 8.2 AT&T agrees to indemnify and hold SWBT harmless against and with respect to any and all third party claims, demands, liabilities or court actions arising from any of its actions, omissions, mistakes or negligence occurring during the course of SWBT's performance of CH processing pursuant to this Attachment.
- 8.3 SWBT will not be liable for any losses or damages arising out of errors, interruptions, defects, failures, or malfunction of the CH services provided pursuant to this Attachment, including those arising from associated equipment and data processing systems, except such losses or damages caused by the sole negligence of SWBT. Any losses or damage for which SWBT is held liable under this Attachment will in no event exceed the amount of processing charges incurred by AT&T for the CH services provided hereunder during the period beginning at the time SWBT receives notice of the error, interruption, defect, failure or malfunction, to the time service is restored.

#### **9.0 DISCLAIMER OF WARRANTIES**

- 9.1 SWBT MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY AS TO MERCHANTABILITY OR FITNESS FOR INTENDED OR PARTICULAR PURPOSE WITH RESPECT TO SERVICES PROVIDED HEREUNDER. ADDITIONALLY, SWBT ASSUMES NO RESPONSIBILITY WITH REGARD TO THE CORRECTNESS OF THE DATA SUPPLIED BY AT&T WHEN THIS DATA IS ACCESSED AND USED BY A THIRD PARTY.

## **ATTACHMENT 21: NUMBERING**

This Attachment 21: Numbering sets forth the terms and conditions under which the Parties will coordinate with respect to NXX assignments.

### **1.0 Numbering**

- 1.1 Nothing in this Section will be construed to limit or otherwise adversely impact in any manner either Party's right to employ or to request and be assigned any NANP numbers including, but not limited to, central office (NXX) codes pursuant to the Central Office Code Assignment Guidelines, or to establish, by tariff or otherwise, Exchanges and Rating Points corresponding to such NXX codes. Each Party is responsible for administering the NXX codes assigned to it.
- 1.2 Each Party agrees to make available to the other, up-to-date listings of its own assigned NPA-NXX codes, along with associated Rating Points and Exchanges.
- 1.3 To the extent SWBT serves as Central Office Code Administrator for a given region, SWBT will work with AT&T in a neutral and nondiscriminatory manner, consistent with regulatory requirements, regarding AT&T's requests for assignment of central office code(s) (NXX) consistent with the Central Office Code Assignment Guidelines.
- 1.4 It will be the responsibility of each Party to program and update its own switches and network systems to recognize and route traffic to the other Party's assigned NXX codes at all times. Neither Party will impose fees or charges on the other Party for such required programming and updating activities.
- 1.5 It will be the responsibility of each Party to input required data into the Routing Data Base Systems (RDBS) and into the Bellcore Rating Administrative Data Systems (BRADS) or other appropriate system(s) necessary to update the Local Exchange Routing Guide (LERG), unless negotiated otherwise.
- 1.6 Neither Party is responsible for notifying the other Parties' end users of any changes in dialing arrangements, including those due to NPA exhaust, unless otherwise ordered by the Commission, the FCC, or a court.

### **2.0 NXX Migration (LERG Reassignment)**

- 2.1 Where a Party has activated more than half of an NXX and the remaining numbers in that NXX are either unassigned or reserved for future use, at the request of that Party it may elect to employ NXX Migration. NXX Migration will be provided by utilizing reassignment of the NXX to the requesting Party through the Local Exchange Routing Guide (LERG).

**3.0    Pricing**

**3.1**

**3.1.1**

**ATTACHMENT 22: DA-FACILITIES BASED**

**SWBT-PROVIDED DIRECTORY ASSISTANCE**

This Attachment 22: DA-Facilities Based sets forth the terms and conditions under which SWBT agrees to provide Directory Assistance (DA) for AT&T as a facilities based switch provider.

**1.0 Services**

- 1.1 DA consists of providing subscriber listing information (name, address, and published or non-list telephone number or an indication of non-published status) to AT&T's customers who call DA according to current SWBT methods and practices or as subsequently modified.
- 1.2 Directory Assistance Call Completion (DACC) service consists of SWBT completing a call to the requested number on behalf of AT&T's end user, utilizing the Interactive Voice System (IVS) or having the operator complete the call. SWBT will provide DACC to AT&T's customers for local, intrastate IntraLATA and, if available, interstate IntraLATA calls.
- 1.3 SWBT agrees to provide DACC only in areas where AT&T can furnish Automatic Number Identification (ANI) from AT&T's customers to SWBT's switch and where AT&T obtains DA service from SWBT.
- 1.4
- 1.5 AT&T commits that SWBT's provision of DACC does not interfere with any contractual arrangement that AT&T has with another operator services provider. AT&T agrees to indemnify SWBT from any and all causes of action which may be brought by an alternate operator services provider based on allegations that SWBT has interfered with any such contractual arrangement solely by virtue of SWBT's provision of DACC to AT&T under this Attachment.

**2.0 Definitions - The following terms are defined as set forth below:**

- 2.1 Non-List Number - A telephone number that, at the request of the telephone subscriber, is not published in a telephone directory, but is available by calling a SWBT DA Operator.
- 2.2 Non-Published Number - A telephone number that, at the request of the telephone subscriber, is neither published in a telephone directory nor provided by a SWBT DA Operator.

- 2.3 Published Number - A telephone number that is published in a telephone directory and is available upon request by calling a SWBT DA Operator.
- 2.4 IntraLATA Home NPA (HNPA) - Where a LATA is comprised of one area code or Numbering Plan Area (NPA).
- 2.5 IntraLATA Foreign NPA (FNPA) - Where a single LATA includes two Numbering Plan Areas (NPAs). FNPA DA calls may be classified as interstate IntraLATA or intrastate IntraLATA DA calls.

### **3.0 Call Branding**

- 3.1 The process by which an Operator, either live or recorded, will identify the DA provider as being AT&T. In all cases the rates quoted to the customer and those applied to the call will be AT&T's. SWBT will offer Call Branding of DA in the name of AT&T.
  - 3.1.1 AT&T will provide SWBT with the specific branding phrase to be used to identify AT&T. The standard phrase will be consistent with the general form and content currently used by the Parties in branding their respective services.
- 3.2 SWBT Directory Assistance operators will provide Directory Assistance Rate Information upon request to AT&T's end users.
  - 3.2.1
  - 3.2.2
  - 3.2.3
- 3.3 .
- 3.4

### **4.0 Responsibilities of SWBT**

- 4.1 SWBT will perform DA Service for AT&T in those exchanges where AT&T elects to purchase such services from SWBT.
- 4.2 SWBT will provide and maintain its own equipment to furnish DA Services.

- 4.3 SWBT will provide DA Service to AT&T customers using current and updated DA records and in accordance with SWBT's current methods, practices, and procedures or as subsequently modified.
- 4.4 SWBT will provide IntraLATA HNPA DA Service and intrastate IntraLATA FNPA DA Service to Customers who dial 1+411 or 1+NPA+555+1212.
- 4.5 SWBT will include current AT&T customer listing information in SWBT's DA database.

**5.0 Responsibilities of Both Parties**

- 5.1 The Party(ies) that provide the circuits between AT&T and SWBT offices will make such circuits available for use in connection with the DA services covered herein. When the total traffic exceeds the capacity of the existing circuits, the Party(ies) will provide additional circuits, to the extent necessary.

**6.0 Responsibilities of AT&T**

- 6.1 AT&T will be responsible for providing and maintaining the equipment necessary for routing calls and signals to the SWBT serving office and also such equipment as may be necessary to record call volumes from the AT&T serving office, in a mutually agreed upon format and media.
- 6.2 AT&T will furnish to SWBT, thirty (30) days in advance of the date when the DA services are to be undertaken, all end user records and information required by SWBT to provide the service.
- 6.3 AT&T will update end user directory assistance listing information using reporting forms and procedures that are mutually acceptable to both Parties. AT&T will send the DA records to SWBT via a local manual service order, T-TRAN, magnetic tape or by any other mutually agreed to format or media.

6.4

**7.0 Pricing**

- 7.1 The following rates will apply for each service element:

7.1.1 Directory Assistance (DA)

Rate per DA call: \$0.370

7.1.2 Directory Assistance Call Completion (DACC)

Rate per completed call: \$0.24

- 7.2 Pricing for branding of AT&T DA calls are as follows:

An initial non-recurring charge applies per trunk group for the establishment of Call Branding.

Rate per initial load: \$2,230.00

Rate per load for subsequent change: \$2,230.00  
Rate per branded call: \$0.02

**7.3 Pricing for rate quotations:**

**7.3.1**

**8.0 Monthly Billing**

**8.1** SWBT will render monthly billing statements to AT&T for DA Service, and remittance in full will be due within thirty (30) days of receipt.

**9.0 Liability**

**9.1**

**9.2**

**9.3**

**10.0**

**10.2**

**10.3**

**ATTACHMENT 23: OS-FACILITIES BASED****SWBT-PROVIDED LOCAL & INTRALATA  
OPERATOR SERVICES**

This Attachment 23: OS-Facilities Based to the Agreement sets forth the terms and conditions under which SWBT agrees to provide local and IntraLATA operator services (Operator Services) for AT&T as a facilities based switch provider. This Attachment applies only to Operator Services provided within a Local Access and Transport Area (LATA).

**1.0 Services - SWBT will provide the following three tiers of Operator Services:**

**1.1 Fully-Automated -** Allows the caller to complete a call utilizing Automated Alternate Billing Service (AABS) equipment without the assistance of a SWBT Operator, hereafter called Operator. AABS allows the caller the option of using the AABS audio response system. AABS will be offered in areas where facilities exist and where AT&T has Automatic Number Identification (ANI) equipment and TOUCH-TONE service in place. AABS cannot be activated from a rotary telephone and failure or slow response by the caller to the audio prompts will bridge an Operator to the caller for further assistance. The called party must also have TOUCH-TONE service to accept calls that are billed collect or to a third number.

**1.2 Semi-Automated -** Allows the caller to complete a call by receiving partial assistance from an Operator or when AABS cannot be activated due to equipment limitations.

**1.3 Non-Automated -** Allows the caller to complete a call by receiving full assistance from an Operator.

**2.0 Call Types - SWBT will provide to AT&T the call types in Sections 2.1 through 2.7 below:**

**2.1 Fully Automated Station-to-Station -** This service is limited to those calls placed collect or billed to a third number. The caller dials 0 plus the telephone number desired, the service selection codes and/or billing information as instructed by the AABS equipment. The call is completed without the assistance of an Operator. This service may also include the following situations:

**2.1.1 The caller identifies himself or herself as disabled and gives the Operator the number to which the call is to be billed (either collect or third number).**

**2.1.2 When due to trouble on the network or lack of service components, the automated call cannot be completed without assistance from an Operator.**

- 2.1.3 When an Operator reestablishes an interrupted call that meets any of the situations described in this Section.
- 2.2 Semi-Automated Station-To-Station - This service is limited to those calls placed sent paid, collect or billed to a third number. The caller dials 0 plus the telephone number desired and the call is completed with the assistance of an Operator. This service may also include the following situations:
  - 2.2.1 Where the caller does not dial 0 prior to calling the number desired from a public or semi-public telephone, or from a telephone where the call is routed directly to an Operator (excluding calling card calls).
  - 2.2.2 When an Operator re-establishes an interrupted call that meets any of the situations described in this Section.
- 2.3 Semi-Automated Person-To-Person - A service in which the caller dials 0 plus the telephone number desired and specifies to the Operator the particular person to be reached or a particular PBX station, department or office to be reached through a PBX attendant. This service applies even if the caller agrees, after the connection is established, to speak to any party other than the party previously specified. This service may also include the following situations:
  - 2.3.1 Where the caller does not dial a 0 prior to dialing the number from a public or semi-public telephone, or where the call is routed directly to an Operator.
  - 2.3.2 When an operator reestablishes an interrupted call that meets any of the situations described in this Section.
- 2.4 Operator Handled Station-To-Station - A service provided when the caller dials 0 to reach an Operator, and the Operator dials a sent paid, collect or third number station-to-station call. These calls may originate from a private, public or semi-public telephone. The service may also include when an Operator reestablishes an interrupted call as described in this Section.
- 2.5 Operator Handled Person-To-Person - A service in which the caller dials 0 and requests the Operator to dial the number desired and the person, station, department or office to be reached. The call remains a person-to-person call even if the caller agrees, after the connection is established, to speak to any party other than the party previously specified. The service may also include when an Operator reestablishes an interrupted call as described in this Section.
- 2.6 Operator Transfer Service - A service in which the caller dials 0 and requests to be connected to an interexchange carrier using an Operator's assistance. At the caller's

request, the Operator transfers the call to an interexchange carrier participating in SWBT's Operator Transfer Service offering. AT&T agrees to obtain all necessary compensation arrangements between AT&T and participating carriers.

- 2.7 Call Branding/Rate Reference - The process by which an Operator, either live or recorded, will identify the operator service provider as being AT&T. In all cases the rates quoted to the customer and those applied to the call will be AT&T's. SWBT will offer Call Branding of Operator Services in the name of AT&T.

- 2.7.1 AT&T will provide SWBT with the specific branding phrase to be used to identify AT&T. The standard phrase will be consistent with the general form and content currently used by the Parties in branding their respective services.

- 2.8 SWBT Operator Services operators will provide Operator Services Rates/Reference Information upon request to AT&T's end users.

2.8.1

2.8.2

2.8.3

2.9

2.10

### **3.0 Other Operator Assistance Services**

- 3.1 Line Status Verification - A service in which the caller asks the Operator to determine the busy status of an access line.

- 3.2 Busy Line Interrupt - A service in which the caller asks the Operator to interrupt a conversation in progress, to determine if one of the parties is willing to speak to the caller requesting the interrupt. A Busy Line Interrupt charge will apply even if no conversation is in progress at the time of the interrupt or the parties interrupted refuse to terminate the conversation in progress.

- 3.3 Handling of Emergency Calls To Operator - To the extent AT&T's NXX encompasses multiple emergency agencies, SWBT will agree to query the caller as to his/her community and to transfer the caller to the appropriate emergency agency for the caller's community. AT&T will provide to SWBT the community's associated with AT&T's NXX(s).

- 3.4 Calling Card - Calls billed to an AT&T proprietary calling card (0+ or 0- access) will be routed via transfer to the AT&T operator.

**4.0 Responsibilities of SWBT**

- 4.1 SWBT will provide and maintain such equipment as is required to furnish the Operator Services as described in this Attachment.
- 4.2 Facilities necessary for SWBT to provide Operator Services to AT&T will be provided by SWBT using standard trunk traffic engineering procedures to ensure that the objective grade of service is met.
- 4.3 SWBT will provide Operator Services in accordance with the operator methods and practices in effect for SWBT at the time the call is made, unless otherwise agreed in writing by both Parties.
- 4.4 SWBT will accumulate and provide AT&T such data as necessary for AT&T to verify traffic volumes and bill its customers.

4.5

**5.0 Responsibilities of Both Parties**

- 5.1 The Party(ies) that provide the circuits between AT&T and SWBT offices will make such circuits available for use in connection with the OS services covered herein. When the total traffic exceeds the capacity of the existing circuits, the Party(ies) will provide additional circuits, to the extent necessary.

**6.0 Responsibilities of AT&T**

- 6.1 AT&T will be responsible for providing and maintaining the equipment necessary for routing calls and signals to the SWBT serving office and also such equipment as may be necessary to record call volumes from the AT&T serving office, in a mutually agreed upon format and media.
- 6.2 AT&T will furnish in writing to SWBT, thirty (30) days in advance of the date when the OS services are to be undertaken, all end user records and information required by SWBT to provide the Service.
- 6.3 AT&T will furnish all records required by SWBT to provide the Operator Services. Such records, or information, will include AT&T's rate quotation tables and any other information required by SWBT. AT&T will provide the initial data by a date mutually agreed to between AT&T and SWBT. AT&T will keep this data current using

procedures mutually agreed to by AT&T and SWBT. AT&T will provide all data and changes to SWBT in the mutually agreed to format(s).

6.4

**7.0 Pricing**

7.1 The following rates will apply for each service element:

7.1.1 Fully Automated Call Processing

Rate per completed automated call: \$0.157

7.1.2 Operator-Assisted Call Processing

Rate per actual work second: \$0.016

7.2

7.3 Pricing for branding of AT&T OS calls are as follows:

An initial non-recurring charge applies per trunk group for the establishment of Call Branding.

Rate per initial load:	\$2,230.00
Rate per load for subsequent change:	\$2,230.00
Rate per branded call:	\$0.02

7.3.1 Pricing for rate quotations:

**8.0 Monthly Billing**

8.1 SWBT will render monthly billing statements to AT&T, and remittance in full will be due within thirty (30) days of receipt.

## **ATTACHMENT 24: RECORDING-FACILITIES BASED**

This Attachment 24: Recording-Facility Based to the Agreement sets forth the terms and conditions under which SWBT will provide recording, message processing and message detail services as described in total in Appendix I Services and Associated Charges, and those services specially selected by AT&T when functioning as a facilities based provider as described in Appendix II, Selected Service Options and Method of Provision, at the rates set forth in Appendix III, Basis of Compensation. Appendix I, II and III are attached hereto and made a part of this Attachment by reference.

### **1.0 DEFINITIONS**

As used herein and for the purposes of this Attachment, the following terms shall have the meanings set forth below:

- 1.1 Access Usage Record (AUR) - a message record which contains the usage measurement reflecting the service feature group, duration and time of day for a message and is subsequently used to bill access to Interexchange Carriers (IXCs).
- 1.2 Assembly and Editing - the aggregation of recorded customer message details to create individual message records and the verification that all necessary information required to ensure all individual message records meet industry specifications is present.
- 1.3 Centralized Message Distribution System (CMDS) - the national network of private line facilities used to exchange Exchange Message Records (EMR) formatted billing data between SWBT and AT&T via the CMDS host.
- 1.4 Data Transmission - the forwarding by SWBT of IXC transported access usage record detail in EMR format over data lines or on magnetic tapes to AT&T via the CMDS host.
- 1.5 Exchange Message Record (EMR) - Industry standard message format as described in accordance with the Bellcore Practice BR010-200-010 developed for the interexchange of telecommunications message information.
- 1.6 Interexchange Carrier (IXC) - A third party transmission provider that carries long distance voice and non-voice traffic between user locations for a related recurring fee. IXCs provide service interstate and intrastate. (In some states IXCs are permitted to operate within a LATA).

- 1.7 Interexchange Carrier Transported - telecommunications services provided by an IXC or traffic transported by facilities belong to an IXC.
- 1.8 Message Processing - the creation of individual EMR formatted Access Usage Records from individual recordings that reflect the service feature group, duration and time of day for a message, Carrier Identification Code, among other fields, for use in billing access to the Interexchange Carriers. Message Processing includes performing CMDS online edits required to ensure the AURs are consistent with CMDS specifications.
- 1.9 Originating Local Exchange Carrier Company - the company whose local exchange telephone network is used to originate calls thereby providing originating exchange access to IXCs.
- 1.10 Provision of Message Detail - the sorting of all AUR detail by Revenue Accounting Office, Operating Company Number or Service Bureau, splitting of data into packs for invoicing, and loading of data into files for data transmission to AT&T for those records created internally.
- 1.11 Record - a logical grouping of information as described in the programs that process information and create the magnetic tapes or data files.
- 1.12 Recording - the creation and storage on magnetic tape or other medium of the basic billing details of a message in Automatic Message Accounting (AMA) format.
- 1.13 Service Switching Point (SSP) - a signaling point that can launch queries to databases and receive/interpret responses used to provide specific customer services.
- 1.14 Switching Control Point (SCP) - the real time database system that contains routing instructions for 800 calls. In addition to basic routing instructions, the SCP may also provide vertical feature translations i.e., time of day, day of week routing, out of area screening and/or translation of the dialed 800 number to its assigned working telephone number.
- 1.15 800 SCP Carrier Access Usage Summary Record (SCP Record) - a summary record which contains information concerning the quantity and types of queries launched to a SWBT SCP. In those situations where charges are applicable for the production and delivery of SCP records, such charges will be those specified in Appendix III-A pertaining to the production and forwarding of AUR data.
